

**Mercedes touring on the open road**

It may not seem the most appropriate time for open-top touring along the Mediterranean coastline, but one of the joys of living in southern Spain is that even in winter we can often enjoy clear skies and dry roads. The Mercedes-Benz SLR McLaren roadster combines high-tech motor racing attributes with the power of a high-performance sports car, long-distance capacity and the sophisticated atmosphere of a classic gran turismo.

# Toys for Boys

WITH CHRISTMAS COMING UP LATER THIS MONTH, WE THOUGHT WE'D OFFER A SNEAK PREVIEW OF THE ULTIMATE TOY FOR **THE BIG BOY** WHO HAS EVERYTHING – **THE LAMBORGHINI REVENTON** – AS WELL AS OTHER OPTIONS FOR THOSE SEEKING FOUR-WHEELED GIFT IDEAS THIS YEAR.

**Lamborghini's latest jewel**

Unveiled at the Frankfurt Auto Show this autumn, the Lamborghini Reventon is a limited edition of just 20 models – with a price tag of €1 million. Its V12 engine generates 650 hp, and it has a top speed of 340 kmh.

The design of the car – a perfect addition to your fleet if you already have a Pagani Zonda R and Bugati Veyron in the garage – is based on two main pillars: the world's fastest combat aircraft (apparent in its general design and "aeronautical" interior) and the "1980s air" of the Lamborghini Countach.
